# Why Customers Chooses Marina Doors

1-Marina doors are designed to be the most strong doors for home security in the world comparing to others , as example :

a- Asian doors use steel sheets 0.5 – 1 mm Thickness for leaf skin ,

1.25 -1.4mm for the frame

b- Turkish doors use 0.8 – 1 mm Thickness for leaf skin ,

1.25 -1.5mm for the frame

c- European doors use 1.25 – 1.5 mm

Thickness for leaf skin ,

1.5 mm for the frame

d- Marina doors use 2.00 mm Thickness for leaf skin,

2.00 – 3.00 mm for the frame

2-Marina doors are covered with MDF skinned with real wood texture , while others uses vinyl texture or HDF skin .

3-Marina Doors use European Locks and accessories (Handles and peep eye ) .

4-Marina doors use high quality rubber gasket and rubber foot step .

5-Marina doors can be customized as customer request .

6-Marina have strong maintenance team ready 24 hrs .

7-Marina guarantee its products against manufacturing faults

Marina produce many categories of armored doors against pullet up to 7.62x51mm
